CALIFORNIA STATE LANDS

COMMISSION MEETING

---oOo---

Reported by: LINDSEY R. PERRY, CSR License No. 12806

1 ---oOo---

2 MR. JENKINS: Good evening. My name is Steve
3 Jenkins. I'm the assistant chief of the environmental
4 division of the State Lands Commission. It's 6:45 on
5 Monday, December 12th. We're here to convene an agency
6 consultation and public scoping meeting for the PG&E
7 Pipeline 57 C --

8 MS. KELLER: Reliability.

9 MR. JENKINS: -- Reliability Project. I think
10 Restoration Project.

11 There's no one here in the audience that we want
12 to -- or may want to make comments on this project, so
13 we're going to close the meeting at this point for about
14 15 minutes and we'll wait. If no one shows up, then we'll
15 close the meeting at that point. That'll make this one
16 shorter than the last one.

17 (Off the record.)

18 MR. JENKINS: Okay. This is Steve Jenkins with
19 the California State Lands Commission. It's 7 o'clock on
20 Monday the 12th, reconvening the agency consultation and
21 scoping meeting conducted at the Holt Elementary School
22 gymnasium in Holt, California.

23 We've waited 15 minutes. No one from the public
24 has shown up. I should mention, for the record, that the
25 land agent for PG&E went out and notified all of the

1 property owners today and over the weekend about this
2 meeting, and we still don't have anyone from agencies or
3 the public here, so we're going to close the meeting at
4 this point. The comment period ends at noon on Friday the
5 16th.

6 So at this point, we'll close the meeting. And
7 thank you very much for your work.

8 (Whereupon the meeting adjourned.)
